1 LOCATION, 8 WEEKS, 3000+ GRADUATE ARTISTS, 70+ ART, DESIGN & FASHION SHOWS, TENS OF THOUSANDS OF VISITORS CELEBRATING THE 11TH ANNUAL FREE RANGE, DEDICATED WEEKLY SCHEDULES FOR: FASHION, DESIGN, PHOTOGRAPHY, ART, INTERIORS & MOTION ARTS SHOWS_

The UK's largest art and design graduate talent exhibition Free Range returns to East London's Old Truman Brewery in June for an eight-week free showcase of new British art and design talent. Now in its eleventh year, Free Range has established itself as the authoritative identifier and supporter of tomorrow's best young creative talent. 2011 will be the exhibition's biggest year yet with over 150 UK arts courses participating. Free Range 2011 will see the return of the highly successful 'Fashion' category that launched last year and the introduction of a further new 'Motion Arts' exhibition. These disciplines will join photography, art, graphic design and interior design on the schedule for the largest showcase of visually creative work to date.

Under the guidance of creative director Tamsin O'Hanlon, Free Range continues to develop year on year and has become a crucial part of London's cultural calendar. In addition to providing new talent with a prominent platform for their work at the event, exhibitors are also given

the opportunity to exhibit their portfolios online for free all year round. Free Range also collaborates with leading industry figures, opinion formers and institutes to facilitate introductions with new creative talent. Partnerships for 2011 include D&AD, I.E. and Prime Cuts.

Free Range will commence with a series of invitation only fashion shows from May 31st to Friday 3rd June and a private view on the 2nd June before opening to the public on 3rd June. The exhibitions are open weekly from Friday - Monday.

We hope you enjoy Free Range 2011

Idea Presents: Institute of Ideas / www.theinstituteofideas.co.uk

Interior Design Environment Architectures seeks to consider the flux between existing & new built form, & the need for human habitation. The work negotiates the territory between the social imperatives & commercial drivers which shape the contemporary world. As the economic & social realities which impact on the human condition suggest new sustainable prototypes the course attempts to provide a basis for developing a discourse with a new integrative agenda.
